

# VERNEY FOUNDATION

The Verney Foundation NPO was founded with the aim to raise funds and bursaries to enable young girls to attend school and provide them with an education that will guarantee their future in South Africa.

We are a Public Benefits Organisation with a 18A status. This means that donations made to the Foundation can be claimed as a qualifying deduction to your income tax return.

We would like to humbly request your assistance in this regard. The cost for each child is R80 000 per year which includes school fees, books, stationery, meals, uniforms and outings.

These girls would be enrolled at Verney College which is a school we partner with regarding our mission to help young girls. The schools' profile can be viewed at [www.verneycollege.co.za](http://www.verneycollege.co.za) or facebook Verney College.
